

# WALKING OUT the Word

## The Loyal Friend

### Memory Verse

"Loyalty in Friendship is  
a Quality to Admire."

Proverbs 18:24

True friendship should be based on what is inside of a person - like telling someone the truth, sticking with them during the tough times. Jonathan showed this toward King David even when Saul, Jonathan's dad, was mean towards David

Ahithophel, on the otherhand, was a fake friend who was nice on the outside but jealous and mean on the inside because of one mistake David did.

Real friends stick close to each other even when it is tough. Look for a friend that has what it takes on the inside, not just because they are fun to hang around!

By the way, what type of friend are you?
